## Feeling

This one keeps things classic and timeless, built around bows, stripes and simple trees in red and white. Think oversized velvet bows, berry garlands and gold bells layered through foliage, with candy-cane baubles, festive slogans and pretty script details finishing the look. Velvet ribbon detailing and beaded, embroidered touches add warmth throughout, making for a cosy, traditional take on Christmas red and white.

# Alpine

## Woods

Picture a snowy log cabin, firelight flickering, and that cosy alpine ski-lodge feel, the inspiration behind this year's look. A rich palette of red, ochre, burnt orange, green and slate grey is elevated with warm antique gold. Lush foliage wreaths and garlands are finished with velvet ribbons, while woodland animals bring charm to print and pattern alongside a traditional Father Christmas.

## Tale

This one tells a fairytale Christmas story of magic and nostalgia, with a soft, feminine feel throughout. Think soft pink, sage green, velvet blue, rose pink and pearl white, brought to life with iridescent finishes, pearls and metallic touches in silver and gold. Hand-drawn 12 days of Christmas details and stars sit alongside pretty icons like swans, mice, bows, nutcrackers and ballerinas. Brushed velvets and satins are paired with tulle, felt decorations and gold foil embellishments for a dreamy, wintry finish.
